

**REMARKS**

Applicant submits this Statement to comply with the requirements of M.P.E.P. § 713.04.

As a preliminary matter, Applicant's representative would like to thank the Examiner for courtesies extended in the telephonic interview conducted on January 22, 2007.

Furthermore, in the Examiner's Interview Summary included with the Notice of Allowance dated February 2, 2007 the Examiner allegedly summarizes a telephonic interview conducted with Sean M. McGinn on January 24, 2007. Applicant's representative points out that the Interview Summary is incorrect for the following reasons.

First, the Examiner did not conduct a teleconference with Applicant's representative on January 24, 2007. Indeed, the Examiner conducted a teleconference with Sean M. McGinn on January 17, 2007. Additionally, the Examiner conducted a subsequent teleconference with Scott M. Tulino on January 22, 2007. On January 24, 2007 the Examiner transmitted a proposed Examiner's Amendment to Scott M. Tulino, which was not entered.

Furthermore, in the Examiner's Interview Summary (of the alleged telephonic interview allegedly conducted on January 24, 2007) the Examiner alleges that "Applicant accepted examiner to amend claims to put claims in condition for allowance. Applicant explained the limitation "without via a network" in claims 1, 20, 28 provided in the specification on page 15, lines 5-25 and in fig. 2 is structure of a database sever within this server a search interface 14 separately and directly connecting with command execution unit and search unit 15 without via a network". The Examiner's summary, however, is incorrect.

Applicant submits the following which summarizes the telephonic interviews conducted on January 17, 2007 and January 22, 2007, as well as a telephone message that was left for the Examiner on January 31, 2007:

**A. Identification of claims discussed:**

Claims 1, 20 and 28.

**B. Identification of prior art discussed:**

None.

**C. Identification of principal proposed amendments:**

Examiner made several proposed claim amendments, which are summarized in the following discussion.

**D. Results of the Interview:**

In the telephonic interview conducted with Sean M. McGinn on January 17, 2007, the Examiner proposed several minor editorial amendments to place the Application in condition for allowance. These proposed amendments are provided in the Examiner's Amendment that has been entered and which accompanied the Notice of Allowance / Notice of Allowability. This was the only matter discussed in the telephonic interview conducted on January 17, 2007.

Applicant further submits, however, that Applicant's representative, Sean M. McGinn, did not authorize the Examiner to enter this Amendment as suggested by the Examiner.

In a subsequent telephonic interview conducted with Scott M. Tulino on January 22, 2007, the Examiner requested clarification for a specific limitation in the claimed invention. Specifically, the Examiner alleged that the limitation "without via a network" was not supported in the original disclosure of the application. Applicant's representative pointed out the specific location in the Application for the support of this claim limitation.

On January 24, 2007, the Examiner transmitted a proposed Examiner's Amendment to Applicant's representative to overcome an alleged "101 problem".

In a telephone message left on the Examiner's voicemail on January 31, 2007, Scott M. Tulino explained to the Examiner that there was not a "101 problem" in the claimed invention and that the Examiner's proposed Amendment of January 24, 2007 was not authorized to be entered.

The above statement has been submitted to clarify the Examiner's Interview Summary dated February 2, 2007.
